

Julián
Cañar

FULL STACK DEVELOPER

Profile

I graduated from the University of Nariño and enjoy developing technological solutions that solve real-world problems. During my academic journey, I participated in academic and professional projects that strengthened my knowledge of software development, databases, and web applications.

My main interest is backend development, although I also have experience in frontend development and databases. I have worked with Java, Python, Django, Angular, PostgreSQL, Docker, and Git. I especially enjoy designing organized, scalable, and maintainable applications, and I am always willing to learn new tools and take on new challenges.

Experience

- Full Stack Developer

Nov. 2025 – Apr. 2026

IPSUS S.A.S.

Participated in the development of a web platform for IPSUS administrative management using Django, Angular, and PostgreSQL. Implemented backend and frontend features, JWT authentication, statistics, and user-experience improvements.
- Teaching Assistant

2025 – 2026

University of Nariño

Participated as a teaching assistant in the development of a web system for managing technology-equipment loans and inventory at the University of Nariño, using Django REST Framework, Angular, and PostgreSQL under the Scrum methodology.

Featured Projects

- Loan & Inventory Management System

Repo: [github.com/julidiviu/inventario-udenaar-nextjs](#) · View: [inventario-udenaar-nextjs.vercel.app](#)

A web application developed for the University of Nariño to manage equipment loans, inventory, users, and automatically generate loan certificates.
- IPSUS Platform

Repo: [github.com/julidiviu/ipsus-frontend](#) · View: [ipsus-frontend.vercel.app](#)

A web platform for IPSUS focused on managing internal information and business processes, including authentication, data management, and features tailored to the client's needs.
- Personal Portfolio

Repo: [github.com/julidiviu/portafolio](#) · View: [portafolio-julian-cannar.vercel.app/en](#)

A multilingual personal portfolio built with Next.js to showcase my professional profile, experience, technical skills, and projects.
